Sprite Tervuren strives to breed quality Belgian Tervuren with honesty and integrity. They have, to the best of their knowledge, bred only healthy, sound stock. All parent lines have been certified clear of inheritable problems common to the breed and are of sound temperament and appropriate working character. Although extreme precautions have been taken to do the best breeding possible, the breeder cannot guarantee adult temperament or working ability. Unforeseen problems can arise; therefore the following contract is initiated to protect both owner and breeder, and most importantly the dog.
